After School & Holiday Club

## Important Updates To Pricing & News About Summer Holiday Activities :-)

**Families Newsletter** - read to the end to find out what extra activities we have this summer!

### **\*IMPORTANT PLEASE READ\***

Avoid a £10 per child admin fee!

Update your child's class for September ASAP!

When a child's class is not correct on the portal, it puts them and others at risk as we can't pick them up safely from a place that is unknown to us! We have to look around the school and ask teachers if they know this child, where might they be. This means a member of staff is looking for your child instead of helping all the children settle into club nicely.

It is also a Safeguarding risk because if there is a child missing, it delays our response time. Any accounts that are not updated by August 1st face a £10 per child admin fee for us to find out the class and update it for you.

### **THE PORTAL**

\*\* Please keep all children's records up to date on the portal, so we know if medication has changed or allergies have change or are not relevant anymore and if your child has moved classes.

-----  
If your child needs any medication when they are at club please make sure the staff have the medication with your child's name on it, that it is in date and you have filled in a permission to give medication form ( without this form we can not give the medicine - even for epi pens)  
Thank you
